

Mission Statement

The Columbine Chorale was created for the express purpose of providing its singers and its audiences with the highest possible level of quality in choral music experiences. It is the fundamental goal of the Chorale to present performances of the great choral literature of our age in such a manner that reflects the Chorale's deep sense of commitment to the aesthetic beauty and profound integrity of the music itself. The ongoing challenge to the Chorale is to continue to expand its repertoire in order to reach as broad an audience base as possible.
